

Take the No-Tanning Pledge

Our pledge

No-Tanning Pledge

I Pledge *not to go tanning prior to the prom. By this I mean that I will not intentionally tan by lying out in the sun or using tanning beds.*

I realize that by getting a tan I am sharply increasing my chances of developing melanoma, which can be fatal if not caught in time.

I have read the Facts of Tanning and understand the dangers of tanning beds and lying out in the sun.

So why should the wife of Red Sox star Dustin Pedroia care about high school kids who go tanning for their proms?

Kelli and Dustin Pedroia

As it turns out, Kelli was diagnosed with melanoma when she was 18. This means that she was probably dancing with melanoma at her high school prom.

Very simply, if she hadn't been diagnosed, she would have died. Kelli met Dustin in college two years later. Not long after, they got married. Can you imagine if she hadn't been diagnosed?

Oh yes, when Kelli was in high school, she spent a lot of time in tanning beds and lying out in the sun. She thinks this is why she got melanoma.

Pledges due Feb. 15
